

# DISNEY'S POLYNESIAN VILLAGE RESORT

Exterior Railing  
Orlando, Florida USA

I-39

L-30

Banker Wire aluminum woven wire mesh is used to surround Disney's Polynesian Resort volcano themed leisure pool. The powder coated mesh finish matches the tropical volcanic Polynesian theme and blends right in. The Lava Pool deck expansion provides an increased area for guests to enjoy a play area pool for the kids as well as a hot tub.
