

FOUR SEASONS CONDOMINIUMS

Exterior Balcony Railings
Portland, Oregon USA

FPZ-46

Located in Portland, Oregon, Four Seasons Condominiums was a total strip and re-clad project by Kilburn Architects and Charter Construction. The project included removal of the existing Marblecrete Stucco, windows, sliding glass doors, and panel balcony railings. New Ceraclad and Ribbed Metal Siding was installed, in addition to new aluminum windows, sliding glass doors, and Railpro Railings using Banker Wire FPZ-46 metal wire mesh infill panels.
