

MILWAUKEE RIVERWALK INFORMATION KIOSKS

Information Kiosk Canopy
Milwaukee, Wisconsin USA

P-242

Rich in iron work history, Milwaukee uses Banker Wire woven wire mesh along the Downtown Riverwalk system. Multiple information kiosks line the river, each with a mesh canopy.

Information kiosks are spread throughout the 3 miles of riverwalk on both sides of the Milwaukee River. Information provides pedestrians and boaters alike with navigational information so that they may easily and safely get to where they are going.
