

RENAISSANCE ATLANTA AIRPORT GATEWAY HOTEL

Bar Cabinetry
Atlanta, Georgia, USA

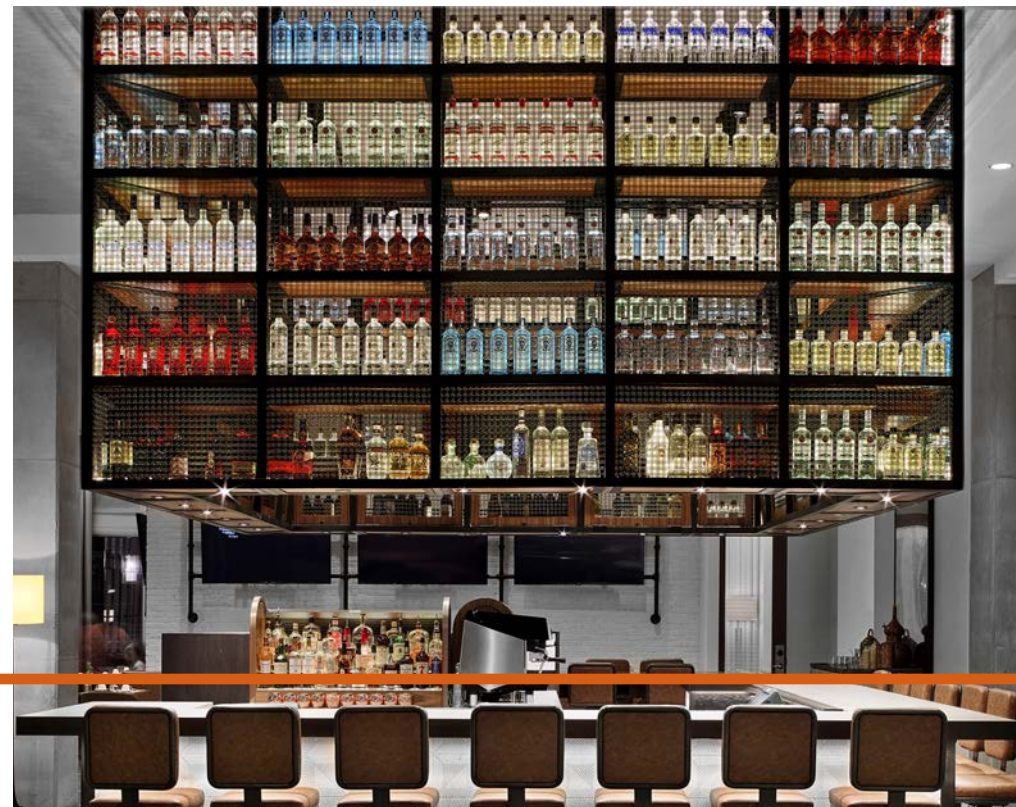

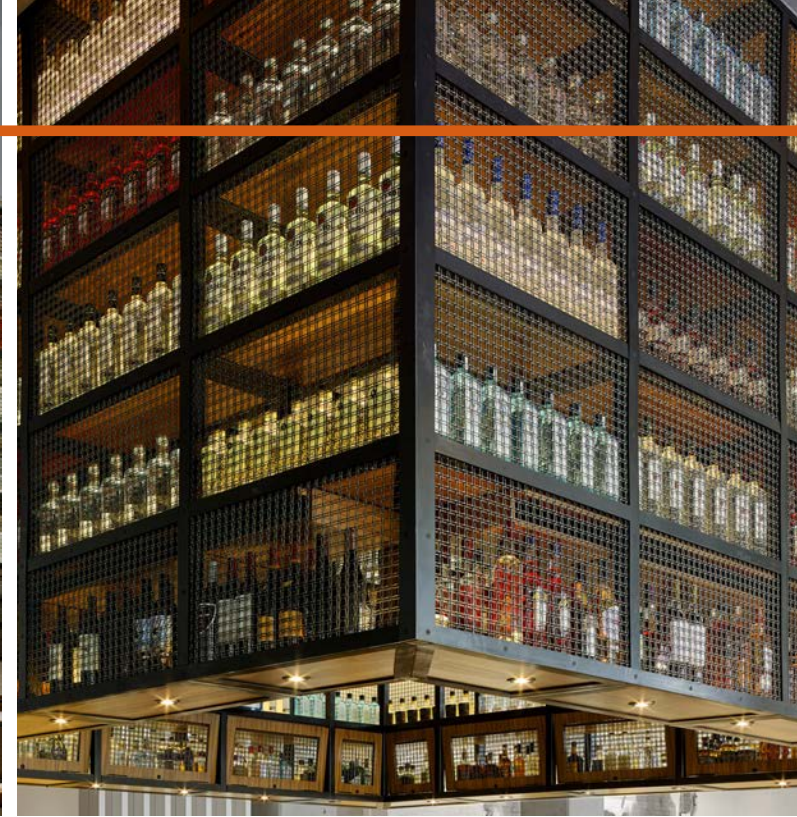

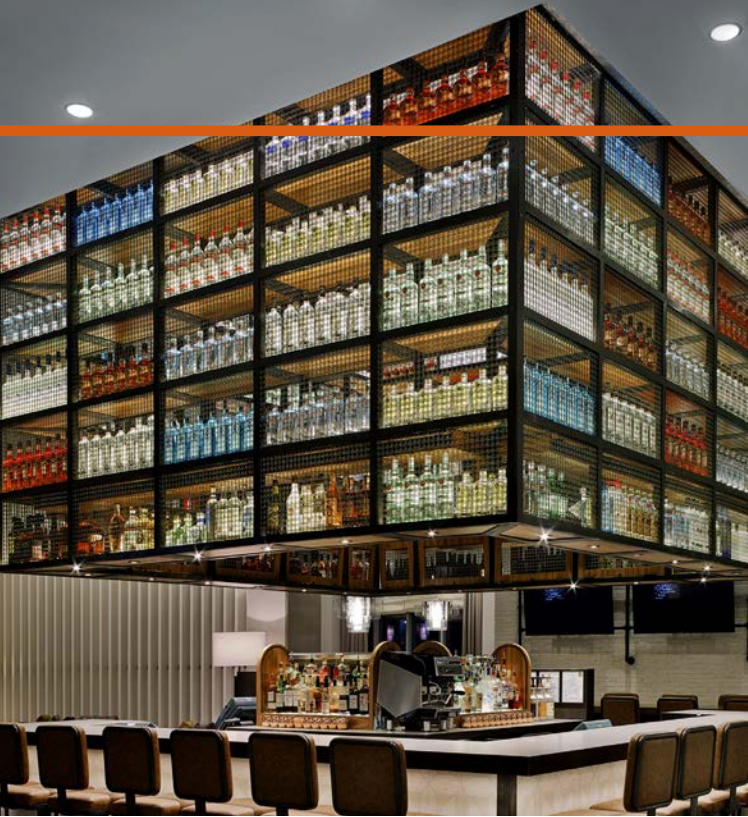

M22-37

In May of 2017, Marriott Corporation opened the brand new Renaissance Atlanta Airport Gateway Hotel. This beautiful new hotel is designed to appeal to business travelers looking for something more out of their airport hotel experience. The 204 guest room hotel balances Southern charm with modern design to create a beautiful and unique aesthetic to hotels.

Located inside the Renaissance Atlanta Airport Gateway Hotel is the Hickory & Hazel Table & Bar, a 2,976 square foot restaurant that seats 106 guests. The focal point of the bar area is the incredible "floating" liquor cabinet that is as functional as it is striking. The colored bottles are enhanced by the cabinet lighting, and protected by Banker Wire's antique brass plated M22-37.

The decorative wire mesh, M22-37, is a strong and rigid twin wire weave that balances spacing and wire diameter. With a 66% open area, the wire mesh's transparency allows the bottles to be seen and admired. Even though the glowing colored liquor bottles throw the decorative mesh into silhouette, M22-37 stands on its own as a beautiful pattern amidst the color.
