

BIERGARTEN LAGUARDIA AIRPORT

Restaurant Signage
New York City, New York USA

SZ-4

The Biergarten at Laguardia's Delta Terminal C opened in June 2013. The 2,900 square foot bar, open to the main concourse, features local and global craft beers along with a German based menu.

The signage and ceiling element utilizes Banker Wire's SZ-4 woven wire mesh with a black oxide secondary finish. The combination of horizontal flat wires and round vertical wires change the perspective of SZ-4's open area with the viewer's angle.
