

# RALPH LAUREN FLAGSHIP LONDON STORE

Luxury Retail Display  
London, England, United Kingdom

**S-16**

*Shown below in bronze,  
standard mill finish*

Banker Wire United Kingdom Representative, Amron Associates, worked closely with Ralph Lauren's Presentation: Windows department to create stunning window displays for Ralph Lauren's London Flagship store in the UK. The Ready to Wear Autumn 2016 window displays feature Banker Wire's S-16 woven wire mesh. The decorative wire mesh, S-16, was woven in bronze and the panels were then fabricated into custom frames. The accessories and clothing items were securely attached to the mesh, allowing the mesh to glow under the overhead lights. Overall, the effect of the window display highlighted the luxury and elegance of Ralph Lauren while showcasing the durability and versatility of Banker Wire woven wire mesh.
