

STARBUCKS COFFEE

STARBUCKS AT STONY BROOK UNIVERSITY

Decorative Canopy
Stony Brook, New York USA

SZ-2

The student body at this New York university voted to make way for a new Starbucks in their central student union. University Staff designers looked to Banker Wire for a unique valance made using SZ-2 woven wire mesh pattern.

Banker Wire SZ-2 woven wire mesh was framed in a heavy stainless steel angle iron frame with satin finish. The SZ-2 filters the light from above and adds a unique one of a kind look to this popular university coffee shop.
